

Spread the Joy

2024

Christmas Catalogue

Our Story

Spread The Joy was created through Innovative Community Support Services. ICSS provides support and practical education for adults with developmental disabilities and mental health conditions, who face barriers for sustainable and meaningful employment. Spread The Joy is one aspect of how ICSS looks to remove some of these barriers.

Spread The Joy creates opportunities for meaningful programs, employment, community connections and a spotlight for peoples' abilities to shine.

This wonderful program was designed to empower our participants by including them in all aspects of small business management from product invention and creation to production and marketing. Spread The Joy is their dream, vision, and passion come to life!

All profits from the sales of Spread The Joy products are invested back into ICSS supports and services.
